Text Before:

The implementation of Regulation of the Minister of Education and Culture No. 14/2018 on the Admission of New Students in the kindergarten, elementary, junior high, high school, vocational school, or other equivalent school levels regarding the school zoning system has led varied reactions from the community, school elements and the local government. It is regulated that schools have to accept at least 90% of the students who live within the radius (zone) closest to the schools. It leaves a conflict between the mission and idealism offered by the government with the interests of the community, in this case parents, to get the best service for their children.

Text After:

The execution of Regulation of the Minister of Education and Culture No. 14/2018 on the Admission of New Students in the kindergarten, rudimentary, middle school, secondary school, professional school, or other equal school levels with respect to the school zoning framework has driven changed responses from the network, school components and the nearby government. It is managed that schools need to acknowledge in any event 90% of the understudies who live inside the sweep (zone) nearest to the schools. It leaves a contention between the crucial vision offered by the legislature with the interests of the network, for this situation guardians, to get the best assistance for their kids.
